

COHERENT

AUDIO

GRA 12

Golden Ratio (GR) design follows the classical proportion for aesthetics and includes internal baffles to minimize standing waves.

Speakers incorporate a custom co-axial driver from acclaimed Radian Audio, custom crossover and components selected for optimal performance.

The cabinets have twin rear ports to deliver an open and transparent sound easily driven by low power tube amps.

OPTIONS

The standard Aluminum diaphragm and Mundorf capacitor can be upgraded to an exotic Beryllium diaphragm and ultra high end Mundorf EVO Silver-Gold-Oil capacitor. Matching stands are also available.

GRA 12 STD

Tweeter diaphragm - Aluminum
Crossover Capacitor - Mundorf MCAP
Internal cabling - Nordost 4-Flat FEP/OFC

LEVEL 1 & 2 Upgrade Options

Tweeter diaphragm - Beryllium
Crossover Capacitor - Mundorf SUP=EVO / SGO

SIGNATURE Upgrade Options

Crossover Capacitor - ACS Capacitors

SPECIFICATION

Type: rear ported, golden ratio, single driver
Cabinet: Canadian MDF construction
Finish: stained, varnished wood veneer
Driver: 12 in co-axial
1.75 in high freq dome with wave guide
Internal wiring: Nordost
Frequency response: 36Hz to 20kHz +/- 3dB
Sensitivity: 96 dB
Impedance: 8 Ohm
Input Power: 2-300 Watts RMS
Dimensions: 16Wx10Dx26H in
Weight: 35 pounds each
